

There is hope in the construction industry. Join me as I talk with Carol Kolona with Kolona Painters. Learn how they went from \$500k in debt in 2002 and living in their car to now having 10 million in sales for 2010. This is a great story of determination, hard work and some of the things Carol and Blake did to turn things around. [www.kolonapainting.com](http://www.kolonapainting.com)
